The Latest News.

From Washington. The Next Congress.

Washington, Dec. 1.—The Raleigh, N. G., Standard of Wednesday contains the following highly important intelligence: Gov. Holden has received the following telegram from President Johnson, which is laid before the public for information:

Washington, D. C., Nov. 2, 1865. New York, Dec. 1.—A special to the limes, dated Washington, 30th, says: Up to 4 o'clock to-day only 35 mem-ers of Congress have reported them.

Two members of the Canadian Par lament, Messrs, Galt and Scott, arrived here to-day to be present at the opening of Congress.

It is understood that Adjutant Gen'l Homas will soon be retired from the army. General Townsend will probably succeed him.

A proposition, emanating from Wash-ngton, is being made to National Banks

A proposition, emanating from Washington, is being made to National Banks throughout the country for subscriptions for the purpose of securing an amendment by Congress to the National Banking law, by which profit or loss of circulation shall accrue to the banks instead of to the government. When necessary, the proper committee in Congress will probably secure its passage without the pecuniary influence thus invoked.

A special to the Tribune, dated Washington, 30th, says:

We have positive information to the effect that the relations of our government with France and England are entirely satisfactory, and there is no probability of a serious disturbance. Napoleon's speculation in Mexico is very unpopular with the French, and he will withdraw his force from Mexico as soon as he can do so without compromising his dignity. oon as he can do so without compro-nising his dignity.

The Spanish Minister to-day read to

The Spanish Minister to-day road to the Secretary of State, under instruc-tions from his government, a dispatch concerning the slave trade, which was replete with the most emphatic exple-tives expressing opposition to the out-rageous traffic, and pledging the most earnest efforts of the Spanish govern-ment for its extirpation. rageous traine, and pleuging are most earnest efforts of the Spanish govern-ment for its extirpation. British domination. The Fenians are quiet, excepting occasional demonstrations with rockets and fire arms.

A special to the Times dated Washington 30th, says:

The report of the Secretary of War is ready for delivery. It will satisfy the country that the same vigor characterizes that department in reducing the army to a peace footing which marked its action in the prosecution of the war. On the first of May last, we had in the field and in hospital, one million five hundred and three men. This has already been reduced to one hundred and seventy-five thousand, and the process of reduction is still going on. By the first of July next, the army will consist of fifty thousand men, which the Secremornacy for the purpose of ratifying the momination of John T. Hoffman for Mayor and Rispard O'Gorman for Corporation Counsel, was held last night at Cooper Institute.

The Herald's Toronto correspondent says the pumber of Fenians enrolled and now drilling in Canada is stated to be nearly \$2,000, of whom nearly one half are said to be already armed.

A special to the Tribune from Washington, of the 30th ult., says the property at Point Lookout has been secured for the temporary asylum for disabled saked, at the opening of the session, to donate the cottages at that point for the purpose, and an appeal will be made to the liberal citizens of the country for means to pay for the land. General Grant is in favor of having the asylum established there, and thinks that the fact of Point Lookout having been used as a watering place before the war, is a sufficient reply to the suspicion of its sunhealthfulness.

A special to the World from Washington of the 30th ult., says: A statement of the public debt for November will be published to-morrow. It compares favorably with that of last October.

EASTON, PA., Dec. 1.—The accident

reporting thence by letter to the Adjutant General of the army.

Official information received here represents that there will be great suffering in Alabama during the present winter, owing to the small grain crop, the result of the want of necessary labor and the severe drought which has prevailed over most of the productive land of the Stade. It is estimated that there are no less than 25,000 persons, both black and white, who must be provided with food until they can raise it for themselves. The Freedmen's Bureau, however, is—under instructions from the Secretary of War—taking the necessary steps to relieve this people as far as possible at an early day.

It is stated that the Treasury has now on hand, in coin, \$41,718,000 and in currenty \$30,162,000. There is at present outstanding \$5,545,000 of old certificates; \$50,516,000 of new certificates and \$51,000,000 of coin certificates.

In the War and Navy Departments there is a reduction in the expenditures of over \$11,000,000 in November, as compared with those of November, 1861.

rom President Johnson to Governor

Governor of North Carolina:

Accept my thanks for the noble and efficient manner in which you have discharged your duty as Provisional Governor. You will be sustained by the government. The results of the recent elections in North Carolina have greatly damaged the prospects of the State in the restoration of its governmental relations. Should the action and the spirit of the Legislature be in the same direction it will greatly increase the mischief already done, and might be fatal. It is hoped the action and spirit of the Legislature will be so directed as rather to repair than increase the difficulties under which the State has already placed itself.

It is expected that there will be a large immigration to Brazil from the United States. Several gentlemen from Louisiana were in Brazil seeking suitable localities for immigrants. President of the U.S.

President Johnson's letter to Gov.
Holden disappointed those who had
hoped that he would insist on the admission of Southern members of Congress, as it shows that he will insist on
the housest compilization with the second gress, as it shows that he will insist on the honest compliance with the terms of his policy. Republican members of Congress already have shown, in conversation, that they believe the President has undergone a decided change in his feelings toward the South, and intends to apply the brakes. A day or two since he expressed himself much dissatisfied with North Carolina for defeating. W. W. Holden for Governor, against his known and declared wishes. Holden will probably remain as Provisional Governor for many months to come.
